Lighting TD

Dear Mr/Mrs,

I am writing to apply for the position of Lighting with your company.

I am the strong Lighter who your company needs to accomplish its organisational goals. And also I am a creative, motivated professional confident that I would be an invaluable asset to your team.

With over 7 years of experience in both freelance and organisational Lighting projects, I consistently bring value to each project I work on.

Please consider my strengths and expertise:

- ✓ Advanced skill utilising Maya, Katana, Clarisse, RenderMan, V-Ray, Arnold, MentalRay, Nuke, Shake, After Effects, and Photoshop on Windows, Mac OS X, and Linux.
- ✓ Expert in lighting (2D&3D), multi-pass rendering and compositing.
- ✓ Strong eyes for layout, colour, and lighting.

I am thrilled about this opportunity, and look forward to discussing in person how my strengths can contribute to your team.

Thank you for reviewing this letter and my application.

Sincerely,

Jin You
